

HIRING

PYTHON DEVELOPER (mid-level, senior, lead)

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 58,800+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, [we continue to support operations for hundreds of clients](#) around the world remotely, with the vast majority of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

No less important is the safety, well-being and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are standing by to ensure a robust and engaging virtual candidate experience. We look forward to speaking with you!

JOB DESCRIPTION

*We are looking for an experienced and ambitious Mid-level/Senior/Lead **Python Developer** for our Budapest office.*

You will be involved in the development of all aspects of our high-performance platform based on Python and intended to provide sophisticated solutions for data-intensive environments. We pay special attention to performance and reliability as well as high-quality synchronization and expect you to strive for excellence in everything you do.

In our turn, we offer you the amazing opportunity to level up your skills due to implementation of best practices and direct communication with and reporting to the customer. You will be working on development of new features, at the same time ensuring the top-notch product release.

RESPONSIBILITIES

- Participate in full-cycle web application development: design, implement, test, and launch solutions in Python
- Be involved in a code review process
- Integrate with other clients' systems and applications
- Communicate with the customer to clarify requirements
- Drive the collaboration process with other team members

REQUIREMENTS

Experience in:

- Python
- Relational databases (PostgreSQL, MySQL)
- Cloud Technologies (AWS, GCP, Azure)
- Messaging queues (RabbitMQ)
- Docker

Knowledge of:

- OOP and design patterns
 - Python coding standards and best practices
 - Unix-based OS (CentOS / Debian / Ubuntu)
 - API building principles in web (REST API)
-

NICE TO HAVE

- Understanding of distributed applications architecture
- Experience in Kubernetes or Docker Swarm
- Experience in Django or Flask
- Understanding of software development life cycle and development methodologies

WE OFFER

- Permanent job with remote work opportunity
- Widespread training and development opportunities, language courses, soft-skill trainings
- Vast opportunities for self-development, unlimited access to LinkedIn Learning, GAL trainings
- Multilingual work environment
- Competitive salary and benefit packages (private health care, sport card, fringe benefits)
- International projects, working in hybrid teams with high-skilled peers

- Sport and social teams support, advanced CSR programs

HOW TO APPLY

If you are interested in the above-mentioned position, please send a detailed CV (in English) referring to the position to: job_hu@epam.com
