Senior.NET developer

HUNGARY

EPAMers think creatively and lead with passion and honesty. Our people are the source of our success. We value collaboration, work in partnership with our clients and strive for the highest standards of excellence. In today's market conditions, we're supporting operations for hundreds of clients around the world remotely. No matter where you are located, you'll join a dedicated, diverse community that will help you discover your fullest potential.

See Yourself in this Role at EPAM
We are looking for a Senior .NET developer to join our team in Hungary. If you are looking to give your career a real boost with a global leader in digital transformation, EPAM is the perfect choice. As a Senior .NET Developer, you will be responsible for designing and implementing sub-systems or whole solutions.

Requirements

- Deep knowledge of and at least 3-5 years of experience in .NET development using C#
- Experience with at least one major area in .NET (e.g., ASP.NET)
- Good understanding of computer science fundamentals, clean code, programming principles, and design patterns
- Experience in system design and architecture (patterns and practices, e.g., messaging, microservices)
- Basic experience with cloud providers (e.g., Azure or AWS)
- Good understanding of the SDLC processes and tools (e.g., code reviews, distributed version control, testing)
- Good English communication skills (B1+ overall language level)

Nice to have

- Experience in front-end development (HTML, CSS, JavaScript, TypeScript) and frameworks (e.g., React, Angular, Node.js, Vanilla JS)
- Experience with database technologies (relational and/or non-relational databases, query languages, and ORMs)
- Experience with CI/CD, DevOps, and related tools (e.g., TeamCity, Octopus Deploy, Jenkins, Docker)
- Experience working in an agile development environment (like Scrum or Kanban, with tools like JIRA or Trello)

What We Offer

- Dynamic, entrepreneurial corporate environment
- Diverse multicultural, multi-functional, and multilingual work environment
- Opportunities for personal and career growth in a progressive industry
- Global scope, international projects
- Widespread training and development opportunities
- Unlimited access to LinkedIn learning solutions
- Competitive salary and various benefits
- Recreation area, advanced CSR programs
