We embrace a dynamic and inclusive culture. Here you will collaborate with multi-national teams, contribute to a myriad of innovative projects that deliver the most creative and cutting-edge solutions, and have an opportunity to continuously learn and grow. No matter where you are located, you will join a dedicated, creative, and diverse community that will help you discover your fullest potential

Description

We are looking for a highly motivated individual to join our development teams as Senior/Lead Software Engineer, with focus on backend development, technology being Java.

Responsibilities

- Being part of an Agile development team
- Contributing to the success of our customer projects
- Development of new product functionality, technical analysis, effort estimation
- Design and implementation of new business requirements
- Working in close cooperation with customer's representatives
- Leveraging your deep understanding of Java Enterprise Technology (including experience with open source proprietary technology)

What You Have

- 4+ years of experience in Java
- At least 3 projects within experience
- Good understanding of design patterns
- Experience working with public cloud services (preferred AWS)
- Strong knowledge about Java (17+) running in containerized environment
- Strong knowledge about Spring frameworks
- Strong knowledge about Test Pyramid (Unit, Component, Integration, E2E)
- Experience with SQL
- Critical thinking / challenging status Quo
- Experience in coaching team members
- Good command of English both written and spoken

Nice to have

- Experience working with Apache Kafka
- Knowledge about DDD or BDD

We Offer

- Permanent job with remote work opportunity
- Widespread training and development opportunities, language courses, soft-skill trainings
- Vast opportunities for self-development, unlimited access to LinkedIn Learning, GAL trainings
- Multilingual work environment
- Competitive salary and benefit packages (private health care, sport card, fringe benefits)
- International projects, working in hybrid teams with high-skilled peers
- Sport and social teams support, advanced CSR programs
