Senior/Lead Test Automation Engineer

EPAM is a leading global provider of digital platform engineering and development services. We are committed to having a positive impact on our customers, our employees, and our communities. We embrace a dynamic and inclusive culture. Here you will collaborate with multi-national teams, contribute to a myriad of innovative projects that deliver the most creative and cutting-edge solutions, and have an opportunity to continuously learn and grow. No matter where you are located, you will join a dedicated, creative, and diverse community that will help you discover your fullest potential.

We are looking for **Senior/Lead Test Automation Engineer** to join our Team in Hungary.

Responsibilities

- Develop and sustain an automated QA testing framework, actively engaging in decisions related to the automation architecture

- Perform test analysis and design test cases to increase coverage for both new and old functions in manual and automatic testing areas

- Work closely with the development team and product owner

- Participate in shaping and enhancing CI/CD pipelines

- Monitor the quality of test automation code produced by teammates, ensuring compliance with coding standards

Requirements

- 3+ years of background in a QA Automation Engineer role

- Fluency in English, both written and spoken

- Proficient in Selenium WebDriver-based tools

- Applied skills in scripting automation for web applications and web services (REST-based)

- Hands-on experience delivering automation focusing on CI/CD (Jenkins, TFS, etc.)

- Expertise in utilizing design patterns and object-oriented programming (OOP) principles

- Competency in writing clean and high-quality program code

- Adaptability to working in an Agile SDLC environment

We offer

- Dynamic, entrepreneurial corporate environment

- Diverse multicultural, multi-functional, and multilingual work environment

- Opportunities for personal and career growth in a progressive industry

- Global scope, international projects

- Widespread training and development opportunities

- Unlimited access to LinkedIn learning solutions

- Competitive salary and various benefits

- Advanced wellbeing and CSR programs, recreation area

We offer
